[Portfolio](#)

Summary:

Project / Delivery Manager with 7+ years driving delivery in AI, SaaS, and enterprise software environments. Most recently led the delivery of custom AI agents and OpenAI-powered tools, on top of a track record of managing C-level stakeholders, running Agile teams, with expertise in project management best practices. Comfortable owning everything from roadmap and QA to client relationships, incident management and capacity management. Certified [Scrum Master \(PSM\)](#) and [Project Manager \(PMP\)](#).

Work Experience:

MVL – Project Manager

London

March 2026 – May 2026

AI Startup (Custom AI tools & SaaS solutions)

- Developed company-wide roadmap, high-level planning, and capacity management framework, enabling real-time visibility and unblocking planning processes
- Designed and implemented an internal testing and QA process covering all stages of delivery (design, development, security, architecture, and compliance)
- Optimised existing Scrum and Agile workflows by closing process gaps
- Managed multiple concurrent AI projects, including development of AI agents and custom AI-powered tools integrated with OpenAI technologies
- Acted as a client-facing lead, running regular catch-ups, status updates, product review sessions
- Conducted client interviews to identify pain points and extract actionable insights, directly influencing product direction and new project opportunities

Standing on Giants – Delivery Manager

London

April 2025 – January 2026

Company providing community management services including an online community platform.

- Managed multiple enterprise client projects simultaneously (AWS, Tesco Bank, Lenovo, E.ON, Lebara, RAC, etc.)
- Managed Sprint Reviews, Retrospectives, and Planning, presenting outcomes to senior leadership and C-level stakeholders
- Built new processes for Support, Security & Vulnerability, and Internal Tech portals, clearing backlog and enabling delivery of functionality that had been blocked
- Served as main POC for all internal and client Support requests
- Led Incident Management processes and handled security-related escalations end-to-end
- Owned Client Reporting process (Jira/Clockify) for budget tracking and capacity planning
- Improved roadmap + sprint planning processes, boosting delivery efficiency by ~30% and increasing predictability
- Improved tech team estimation accuracy by analysing delivery data vs. estimates, enhancing client satisfaction and reducing friction
- Successfully launched a new mobile operator client's community (Lebara), managing scope, timelines, and delivery end-to-end

Xanda Digital Media – Project Manager

London

Dec. 2023 – March 2025

- Built strong client relationships through regular updates and proactive problem-solving
- Found upsell opportunities and secured extra work, boosting project value
- Managed 15 projects, balancing scope, budget, timelines, and Agile delivery
- Facilitated Sprint Planning, Backlog Refinement, Standups, Reviews, and Retrospectives.
- Led a cross-functional team of 20 across dev, design, analysis, and QA
- Coached the team on Agile practices and encouraged collaboration

Drim startup – Scrum Master

Remote

Dec. 2021 – June 2023

- Mentored a cross-functional team, upheld Agile principles as a Scrum Master
- Managed a team of 10 across development, analysis, design, and QA.
- Oversaw API integration projects with external clients
- Conducted user research to guide product and UX decisions
- Improved registration and onboarding, raising conversion by 1%
- Cut message costs by 90% (£50k/year) by switching providers
- Built and launched a new payment method for self-employed influencers
- Launched and maintained the Drim service from concept to release, covering SEO, onboarding

Gridnine systems – Project Manager

Moscow

June 2021 – Nov. 2021

- Built and maintained the product backlog in Jira to keep delivery on track
- Collaborated with stakeholders to define requirements and align expectations
- Investigated new features for potential implementation and assessed existing performance
- Documented current and upcoming features in Confluence

Zaryadka startup – Cofounder

Moscow

Jan. 2019 – Jan. 2021

- Founded and managed an IT start-up focused on portable battery sharing
- Launched the full system — dispenser MVP plus Android and iOS apps
- Oversaw project management, budgeting, and business planning
- Registered patents, trademarks, copyrights, and know-how
- Coordinated developers and engineers building the MVP and mobile apps
